Corporate Development	Evangelism / Community	Personal Development

Corporate training provides a strategy and infrastructure to identify, train and mobilise the body into effective members of the body. The corporate emphasis is taking responsibility in fulfilling our ministry call as identified in Ephesians 4	Evangelism is the lifeblood of any church. It stimulates growth and identifies personal responsibility of the great commission. Providing strategies to engage with the community whilst training the body to be fruitful in every good work.	Personal development is all about providing resources and strategies to develop and mature as a believer in Christ. By providing training and personal accountability to grow, we are building the body locally and providing the skillset for corporate growth.
